## Personal Statement

I just graduated in Computer Engineering from Antalya Bilim University with an honor degree. I'm proud to say I was one of the top three students in my department. I love technology and want to use my skills to make cool stuff. I enjoy solving, managing problems and learning new things. I'm excited to start my career and work on interesting projects with your team. I'm a quick learner and like working with others to find solutions. My energy and passion would be a great fit for your company.

## Work Experience

### Self Employed

#### Ethical Hacker

- Demonstrated proficiency in ethical hacking techniques with a focus on video games.
- Executed successful attacks on websites, ensuring robust security measures.
- Applied advanced skills to break encryptions, enhancing overall cybersecurity.
