Personal Statement

A bachelor's degree holder in Computer Engineering from Antalya Bilim University with an honors degree, and a passion for technology and problem-solving. Quick to adapt, eager to learn, and confident in collaborating within team environments. Ready to contribute technical skills and fresh perspective to meaningful projects in a professional setting.

Experience

IT Project Engineer *August 2025 - Present*

Global Advanced Technology "Hi Tech"; Jeddah, Saudi Arabia

- Manage and coordinate low current projects including CCTV, Access Control, Structured Cabling, network infrastructure, and related ELV solutions.
- Prepare and review technical proposals, BOQs, and quotations for solutions including IT infrastructure
- Evaluate client requirements, recommend suitable solutions, and ensure compliance with technical specifications and standards.
- Follow up with clients on approvals, clarifications, and additional requirements to maintain project momentum.

Artificial Intelligence Developer *June 2023 - January 2024*

Arya.ai; Antalya, Turkey

- Engaged in AI development and research, contributing to cutting-edge solutions.
- Developed intelligent internal route planning algorithms using Yandex Maps for cargo optimization.

Partner *May 2023 - August 2023*

Saneh Consultancy Services; Antalya, Turkey

- Contributed to Saneh Consultancy Services, an independent and international education and sports consultancy assessment agency based in Turkey.
- Specialized in guiding individuals through the application process, including institution selection, trials, visa procedures, transportation, and accommodation.

RPA Developer Intern *February 2023 - June 2023*

Arya.ai; Antalya, Turkey

- Worked on Robotic Process Automation projects, enhancing operational efficiency.
- Successfully implemented automation solutions, contributing to project success.

Volunteer Professor Assistant - Assembly Language Course *September 2021 - January 2022*

Antalya Bilim University; Antalya, Turkey

- Assisted in delivering course content related to low-level programming and computer architecture.
- Supported the professor in preparing educational materials, setting up lab exercises, and explaining concepts to students.
- Helped students with coding assignments and troubleshooting programming issues in Assembly language.

Retail Manager *January 2019 - August 2021*

Self Employed; Jeddah, Saudi Arabia

- Founded and operated my own online store, overseeing all aspects of the business.

Education

Bachelor of Science in Computer Engineering

Antalya Bilim University | 2020 - 2024

GPA: 3.45 / 4

Projects

- Reference-Style-Modifier – Reference converter (MLA to APA/Chicago) written in Python for file parsing and rewriting.
- BlackJack-Game – Java-based interactive Blackjack game with GUI and game logic.
- ProgrammingCalculator – Java Swing calculator with binary, decimal, hex, and bitwise ops.
- HexadecimalCalculator – C program on microcontroller for bitwise hex operations with keypad and LCD.
- Password-Based Authentication System – 8051 microcontroller project in C with keypad input and LCD output.
- SubtitleSynchronization – Subtitle timestamp adjustment tool in C/C++ handling multiple languages.
- TemperatureMonitoringSystem – Embedded C microcontroller system with ADC, keypad input, and LCD display.
- Numerical-Analysis – Finite difference method to calculate function derivatives with visualization.

Skills and Languages

Key Strengths: Web Platform Management, Software Development, Problem Solving, Team Collaboration

Programming Languages : Javascript, C/C++, Java, Python

Libraries/Frameworks React.js, Git, Node.js, HTML5, CSS3, JQuery, Bootstrap

Databases & Backend: MongoDB, Firebase

CMS & Platforms: WordPress, Google Firebase

Professional Skills : Digital Marketing, Project management, Team leading, Problem Solving, Time Management, Presentation Skills

Languages : Arabic, English, Turkish
